The conglomerate that we are today, arose from a dream. The inception of this dream took a lot of courage & persistence which was indeed everything we could offer at the time, starting at the grassroots level of the industry.

1984 was the year that laid the foundation of our partnership firm BCPL Railway Infrastructure. Our alliance still stands strong after four decades & reinforces our values & beliefs— “if you want to go fast, go alone; but if you want to go far, it is best to go together”.

What started as a project on the drainage system of the circular rail, has now grown into 2500 kms of railway tracks of India electrified by us.

2002 witnessed the establishment of our export house Phoenix Overseas which now holds multiple awards from FIEO & SOPA.

Being listed at the Bombay Stock Exchange would be something like reaching for the stars back in 1984, but it has been a striking reality for us since 2018.

Our entry to the crude oil industry as BCL Bio Energy will mark our next step in our long journey together. Needless to say, immense support, tireless effort & cooperation of our workforce are the torch bearers of our endeavours as a team.

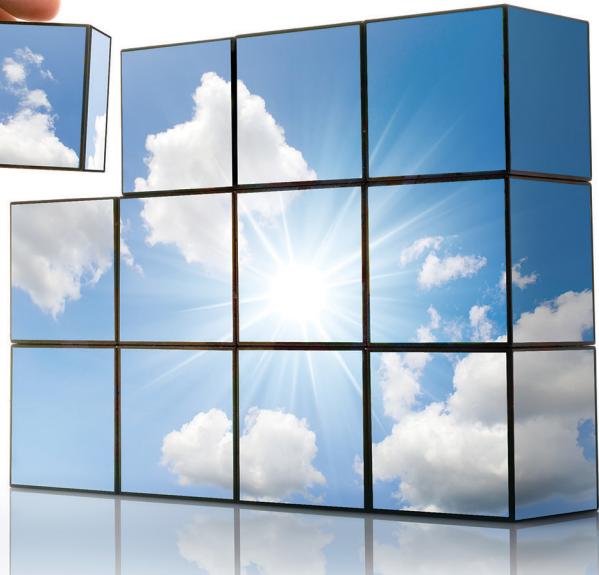

We are proud of how far we have come together, and will continue to do so in the coming years.

## GROUP COMPANIES

BCPL RAILWAY INFRASTRUCTURE LIMITED

PHOENIX OVERSEAS LIMITED

BCL BIO ENERGY PRIVATE LIMITED

# HISTORY OF BCPL RAILWAY INFRASTRUCTURE LTD.

In the year 1984, Mr Aparsh Nandi, Mr Jayanta Kumar Ghosh, Mr Uday Narayan Singh and Mr Kanhai Singh the promoter Directors of BCPL started its operations.

The company started with a nominal capital of Rs. 50,000/- and a manpower of just 5 persons and has grown to its present net worth of over Rs. 80 crores.

They began as civil contractors for the Indian Railways.

In the mid 90s, BCPL ventured into Railway Electrification work which was gradually gaining importance in Indian Railways.

Soon the Company achieved a niche in the market for this specialized scope of work.

BCPL values its experienced staff strength that has promoted the growth of the organization.

# CORE BUSINESS

## Focus on Larger Railway OHE Projects

The company has decided to lay stress on larger Railway Electrification projects but with continued focus on the small and mid sized ones. The company has decided to adopt this strategy keeping in view the country's over dependence on imported petroleum products for its transport fuels. If this has to be corrected, the government and the private sector have to develop and expand the electrified transport routes, especially the Railways.

## Focus on Power Transmission Lines

The management has decided to gradually enter into the power transmission infrastructure business. This would require the company to get work of the Power Grid Corporation and other entities in the National Power Grid network. This sector also has a vast growth potential as a large part of the country is still not served by electric power and also keeping in view the vast power generation capacities which are coming up through out the length and breadth of the country.

# PRESTIGIOUS PROJECTS

## 25 kV OHE work from Singapur To Damanjodi

The project entails our toughest & challenging project, stretched over difficult terrain.

24 kV, 50 Hz, Single Phase, AC, Electrification Works including OHE Electrical Work" in Hospet (Excl.)-Swamihalli (Incl.) Section, Gr. 300 of Hubballi Division of South Western Railway under RE Project Bengaluru, Total 59 RKM/78 TKM.

# PRESTIGIOUS PROJECTS

25 KV AC Traction Overhead Equipment for Electrification of Chitpur Terminal in Sealdah Division of Eastern Railway.

## Smart Energy Meter

Installation of Dual Source Smart Energy Meter at different IT Parks under West Bengal Electronics Industry Development Corporation Limited (WEBEL).

25 KV OHE Work from Khana to Pakur.  
The big project from (Railway Electrification) still running on, to cover 376 TKM.

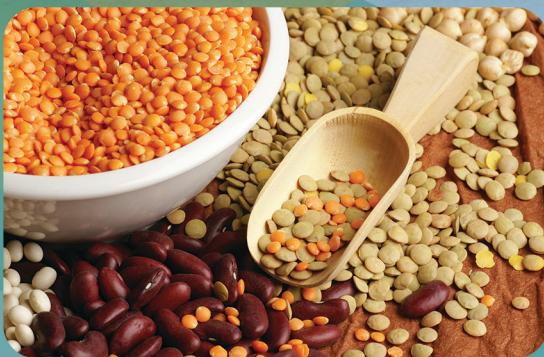

# COMMODITY

The Company is one of the largest leading exporters of Agro Based Commodities, our range of products are Rice, Wheat, Pulses, Maize, Rapeseed Extraction, De-oiled Rice Bran, Soybean Extraction, Fish Meal and Spices, exporter to Bangladesh, Pakistan and African Countries. We are also in the process of tapping other S.E. Asian countries namely Vietnam & Thailand etc. in the future and are constantly on the look-out to expand our product range to include Green Vegetables, Medicinal Plants etc. Please visit us at [www.phxglobal.net](http://www.phxglobal.net)

We make sure to comply with quality and regulatory requirements. The products are sourced from our strong network of quality suppliers and farmers as well. Additionally, we give our best effort in processing and packing to ship quality goods to our clients worldwide.

## JUTE

The Company is one of the leading manufacturers and large scale exporters of bags made of jute. These bags are not only eco-friendly but are also reusable for multiple purposes. We ensure utilization of superior quality of jute and state-of-the-art technology to create jute bags that are bio-degradable and durable.

Our jute bags are customised in various designs, patterns, colour, and size, these jute bags can be used for promotional bags shopping bags, festival bags, tote bags etc. The exclusive designing ensure that the jute bags are extremely trendy and serve multiple purpose.

## BCL BIO ENERGY PRIVATE LIMITED

BCL Bio Energy Private Limited, founded on May, 2022, has its registered office at Kolkata. The BCL has proposed setting up of 300 TPD Rice Bran Oil Extraction Plant at Bardhaman, West Bengal. The proposed project will be equipped with all the latest environment friendly machinery required for Rice Bran Oil Extraction and Crude Rice Bran Oil.

## PLANT CAPACITY

The Installed capacity of the Solvent Extraction plant will be 1 Lac Ton per annum. The company is targeting to export to all major South-East Asian Countries and will also help in reducing the dependency of import of oil.

# COLD STORAGE

Our supply of commodity is supported by our godown and cold storage facility near Malda border spread over 3 acres of land. 20% of electricity requirement for the same is powered sustainably through solar panels set up by us.

# CSR

Besides employment generation, our body of work goes above and beyond to reinforce the growth and literacy rates amongst the less fortunate. This includes a health checkup camp arranged for people who have poor access to healthcare. We have been responsible for education of multiple underprivileged & hard-working students aged 15 to 18. We have also attempted our hand of help to empower women through various activities. Our activities to encourage education, financial independence & self-reliance are fulfilled via BRIL Social Foundation and is fully financed by us.

# SOME OF OUR CSR ACTIVITIES

Free health camp & medicine distribution for underprivileged individuals at Malda, West Bengal.

Provided financial assistance for education of talented students at Gangasagar.

Distribution of Sewing machines as a women empowerment activity at Sodepur, North 24 Parganas, West Bengal.
